REVISION TO NOTICE TO NAVIGATION INTERESTS 07-19

EQUIPMENT UNLOADING AT JOHN AMOS POWER PLANT

KANAWHA RIVER, MILE 39.5

Notice is given that due to the recent high water event on the Kanawha River, that Notice to Navigation Interests 07-19, Equipment unloading at the John Amos Power plant, Kanawha River mile 39.5, left descending bank is being revised to reflect the following:

The estimated completion date of the work is changed to read "on or about 30 April 2007"
The M/V CAPTAIN ED HARRIS replaces the M/V FLORENCE T. All other information remains unchanged. **For your convenience the following is from Notice to Navigation Interests 07-19:**

Notice is given that on or about 16 April 2007, the Babcock and Wilcox Company will begin unloading equipment at the American Power facility located along the left descending bank of the Kanawha River, mile 39.5. This operation will require the temporary mooring of a 300 foot barge perpendicular to the bank, with the stern adjacent to the navigation channel.

The contractor's floating plant will consist of the M/V FLORENCE T and one equipment barge. The M/V FLORENCE T will be monitoring marine channel 13 & 16. During non-working hours, the floating plant will be moored parallel to the work site and lighted according to regulations. This work will be performed seven days a week from 8:00 a.m. to 5:00 p.m. and the work will be completed on or about 20 April 2007.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

ARLIE D. BISHOP
Chief, Technical Support Branch
